Fair Work's Employer Advisory Service

If you are a small business employer, that is, you have less than 15 employees, you may be eligible to be referred to the Employer Advisory Service (EAS) program by Fair Work. The EAS is a **free** service for small businesses that allows employers to talk to an advisor about pay issues, entitlements and/or award provisions. The advisor will provide *written* advice to employers.

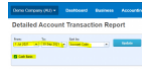

You can only be referred to the EAS program - it's not possible to access it directly. To obtain a referral, you should make an online inquiry through your Fair Work [My Account](#) or call Fair Work on:
